What is the STAR Foundation?
STAR Foundation is a non-profit organization that focuses on providing job readiness and life skills.

Mission Statement
The STAR Foundation educates and encourages adults in Coastal Georgia to become self-sufficient through a program of computer, job, and life-skills training.

Services
- The STAR program is an 8-week session in which STAR students receive training in computer skills, job skills, financial management, and essential life skills.
- STAR students have the opportunity to earn a desktop computer upon completion of the program.

Our Project
- We created and implemented the “Attire for Hire” Program.
- We worked closely with Ellen Murphy, Executive Director of STAR.
- The program was funded by a grant from the Rotary Club of St. Simons Island.
- Attire for Hire provides each STAR student with the opportunity to earn a full interview outfit through a voucher reward system.
- STAR students earned vouchers throughout the 8-week program by attending class and successfully completing assignments.
- At the completion of the program, STAR graduates were individually taken shopping to purchase the outfits they earned with their vouchers.
- We also hosted a media event at STAR to raise awareness in the community of the STAR Foundation.
